CharityEngine

Sharpen Your Skills with Custom CharityEngine Training

Your team deserves training that fits the way you work. We tailor every session to your goals and how your organization uses CharityEngine—so your staff gains the confidence and skills to make the most of the platform.

Is Custom Product Training Right for You?

Do any of these sound familiar?

- ✕ **New staff onboarding is taking too much time**
- ✕ **Your team uses CharityEngine differently and inconsistently**
- ✕ **You want deeper proficiency in queries, automation, events, or reporting**
- ✕ **You need focused support on specific modules**
- ✕ **You want to accelerate user adoption across your organization**

If so, our curated training packages can help your team feel confident and empowered.

How We Tailor Your Training

Before scheduling, we collaborate with you to define the right curriculum by asking:

- ✓ **How many staff need training?**
- ✓ **What are their roles and comfort levels?**
- ✓ **Which modules or workflows matter most to you?**
- ✓ **What outcomes do you want to achieve?**

Your training is designed around real goals, not generic instruction.
